PLAYDOH RECIPE

Children love to play with Playdoh and it is very good for developing the muscles in their hand to prepare them for writing. Therefore, the CoOp likes to have a good supply of Playdoh on hand in the classroom. Homemade Playdoh is the best. It is soft and pliable. Throughout the year we ask families to volunteer to make a batch of Playdoh for the classroom. Below please find our Playdoh recipe – enjoy!

In a good sturdy pot add the following:

2 cups of water

food coloring

mix well

Then Add:

2 cups of flour

1 cup of salt

4 tsps of cream of tartar

2 tbls of vegetable oil

Constantly mix over low heat until mixture forms a ball. Don't cook too long or it will not be soft. Remove and cool. Knead before placing in zip-lock bag.
