COMMUNITY & FUNDRAISING EVENTS

We received feedback from several families that they would like to build better networks and a sense of community with other families in the School. To assist with this goal, we plan on holding a series of community events throughout the school year that will serve as opportunities for families to get together and get to know each other better. We also have two fundraising events, the Monster Mash and Fashion Show that will help raise funds for the school while also giving families a chance to connect. Below is a tentative list of events, please indicate which events you and your family may be interested in attending.
